

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. 1911

REPORT OF SECRETARY OF STATE.

To His Excellency, T. M. Campbell, Governor of Texas:

Acknowledging with profound gratitude the many courtesies extended me, and the able counsel given me by your Excellency in the administration of the varied and difficult duties of this Department, I have the honor to submit herewith my biennial report, covering the period of two years beginning September 1, 1908, and ending August 31, 1910. This period of time covers five months of the administration of my predecessor, Captain W. R. Davie, and nineteen months of my own, making the full period of twenty-four months.

This report does not embrace the returns of the general election held November 8, 1910, which will be furnished in a supplementary report, so soon as the returns thereof are received and can be tabulated and printed.

RECEIPTS OF THE DEPARTMENT.

The records of this Department show that the receipts thereof from all sources for the period of the administration of W. R. Davie embraced in this report were \$59,664.54; that the receipts from all sources of my administration were \$1,294,576.77, aggregating a total of \$1,354,241.31 for the full period covered by this report. The receipts from all sources for the two years preceding this report were \$879,897.01, showing a net increase of \$474,344. Within the period of two years covered by this report the records show that there were 2950 domestic corporations chartered and 288 foreign corporations obtained permits to do business in Texas. For the two years previous, covering a corresponding period of time, there were filed 2683 domestic corporations and 152 foreign corporations obtained permits to do business in this State, showing an increase of 267 domestic corporations and 136 foreign corporations.

For the full period of four years ending September 1, 1910, embraced in your administration, there have been filed in this Department 5633 domestic corporations, while 440 foreign corporations have obtained permits to do business in this State. For the four years previous to your administration there were filed 4461 domestic corporations and 249 foreign corporations obtained permits to do business in the State. This was the most prosperous period in the Department's history up to this time, but by comparison you will observe that there were 1172 more domestic corporations filed and 191 more foreign permits granted under your administration than during any like period heretofore.

No better illustration could be made that capital is not afraid to invest in Texas than the comparisons shown herein.

The number of charters above mentioned that have been filed covering the period of this report does not embrace the charters to railroad companies and amendments to same which were approved by the Attorney General and filed and recorded in this Department.

Of these the records show that 42 charters of railroad companies, aggregating a total capital stock of \$6,328,500, and an approximate mileage of 6350 miles, were filed and recorded, while there were seventeen amendments to railroad charters filed and recorded increasing capital stock, extending their lines and changing places of business, etc.

From the records of this Department I find that the number of pardons, restorations of citizenship and the right of suffrage, remissions and commutations, embraced in the period of this report are:

Pardons	393
Restorations of citizenship and right of suffrage.....	189
Remissions of fines and forfeitures.....	48
Commutations of sentence.....	6

GROWTH OF THE DEPARTMENT.

No better illustration can be given as to the growth of this Department and the wonderful development of the State than the net receipts of the Department for the past ten years, which are as follows:

For the year ending August 31, 1901.....	\$311,815	16
For the year ending August 31, 1902.....	253,969	37
For the two years 1903 and 1904, ending Aug. 31, 1904..	441,169.88	
For the two years 1905 and 1906, ending Aug. 31, 1906..	603,566	75
For the year ending August 31, 1907.....	371,781	33
For the year ending August 31, 1908.....	508,115	68
For the year ending August 31, 1909.....	593,275	36
For the year ending August 31, 1910.....	760,965	95

And as a further illustration of the remarkable development of the State and the growth of the Department during the four years preceding your administration, the net receipts of this Department were \$1,044,736.63, while for the four years of your administration the net receipts are \$2,234,138.32, an increase of \$1,189,401.69. These receipts go to the State's general revenue and have contributed to the continued reduction of the State's tax rate and lessened the tax burdens on the masses of the people. The remarkable increase here shown in receipts would have been impossible without the corporation tax and fee laws enacted during the present administration. As before remarked, the period of four years preceding your administration was the greatest in point of increase of any like period in the history of the State to that time, and when compared with the still greater increase for the last four years show conclusively that capital is not afraid of Texas, notwithstanding the unwarranted criticism in some quarters of legislation that has been passed by the Thirtieth and Thirty-first Legislatures.

In conclusion, I desire to express to you my thanks for the many kindnesses, frequent indulgences and able council of your Excellency,

the Attorney General's Department for its able advice and counsel, and also to my chief clerk, Mr. H. M. Little, and my entire office force, who have labored harmoniously, industriously and faithfully to discharge every duty assigned them.

Very respectfully,

W. B. TOWNSEND,
Secretary of State.
